

2015 Gate Scholarship Instructions (For those applying in 2014)

In order to be considered for the Gates Cambridge Scholarship, you must apply to the University of Cambridge and the Gates Cambridge Scholarship as a post-graduate student using the same application pack.

Step 1 Go through the [Graduate Admissions Office](#) to select your chosen post -graduate course at the University of Cambridge. You must submit the GRADSAF application form (which includes a Gates Cambridge Section), Academic Transcripts, 2 Academic References, and 1 Personal Reference (for the Gates Cambridge Scholarship). Some students may be required to submit English Language test scores (if English is not your first language) and a Research Proposal, an example of your written work, a GRE/GMAT score, etc.

Note: Not all students will be required to submit these documents. You can find out more details on what you might need to submit at <http://www.admin.cam.ac.uk/univ/gsprospectus/>.

Step 2 Seek feedback on your application and make revisions to polish your writing before submitting. You are always welcome to seek feedback and critiques from the National Scholarships, Fellowships, and Programs office (located in 102B, Maeser Building). Also, you are more than welcome to ask your referees to submit a copy of their references to the NSFP office before the October deadline, if they desire feedback on their recommendation letters. Be sure to start early because revisions take lots of time.

Step 3 By the first week in October, 2014 (or earlier if your graduate program has an earlier deadline), submit your application to Cambridge through the [Graduate Admissions Office](#). Good Luck!

*For the [MBA](#) and [MFin](#) programs, apply directly to the Judge Business School, using their online application system.
